Start the process

... backgrounds are removed using artificial intelligence

And through an API, we are paying for this service. We make it paying as well for that reason !

The screenshot shows the Amazon Integration Plus interface. At the top, there's a navigation bar with 'Amazon Integration Plus' on the left and 'by Common-Services' on the right. Below that is a menu with 'Dashboard', 'Connect', 'Workflow', 'Rules', 'Models', 'Actions', 'Reports', 'Roadmap', 'Help', and a search bar containing 'andreacarrano'. The main area has tabs for 'Catalog', 'Orders', 'Operations', 'Scheduler', 'Feeds', and 'Failures'. The 'Catalog' tab is active, showing a search for 'Mare' with a 'Convert' button highlighted. Below the search, there are two columns: 'Search result' and 'Candidate list'. The 'Search result' column shows two images of shoes with a 'Done' button. The 'Candidate list' column shows one image of a shoe with a 'Remove' button. A 'Confirm' dialog box is open in the foreground, titled 'Background removal confirmation'. It states 'You selected 6 images' and 'Qty: 6 Unit Price: \$0.99 Total: \$5.93'. There is a checkbox for 'I accept to be charged \$5.93 for background removal' which is currently unchecked. Below this is a notice of warranty: 'Removing background doesn't give you any insurance that the target images will be the ones displayed on Amazonas Amazon automatically select images depend on their own criteria.However, as best as is the image, as best as it is eligible to be displayed in priority on Amazon'. At the bottom of the dialog, there are 'Cancel' and 'I accept' buttons, with the 'I accept' button highlighted.

It starts in the background

... the App processes the images, they will be available
After few seconds or some minutes depending on the quantity...
